

DESIGN YOUR OWN PUPPET SHOW

We know many kids love creating puppet shows with their Pyjama Angels, so why not hold one... virtually?

We've found a bunch of characters that you can colour in, cut out and stick on a paddle pop stick or use as a finger puppet. Once your characters are ready, prepare for your puppet show by creating a storyline or make it up as you go!

HINT: To make a finger puppet, cut a piece of paper out that is 3cm long x 1cm wide. Stick this piece of paper to the feet of your puppet, then glue the ends together to make a ring around your finger.
